

Give Me LIBERTY

The Tour

It has become increasingly evident that we are at a critical juncture in the history of the United States. No longer is our struggle between Republican and Democratic ideals but between liberty and tyranny. The Give Me Liberty tour is a vision for the restoration of the union, a vision to see the church come to repentance and uphold the liberties and freedoms that our founding fathers represented.

Why Florida?

In short, because Washington *will not* fix itself. We have seen millions of dollars invested in Washington, and we've rallied around parties to "take back" Washington—yet nothing ever changes for the better. As Washington continues to grow in size, power, and wealth, it is clear that Washington is not the solution but the problem.

Florida presents a unique opportunity to challenge Washington to live by and uphold the Constitution, and if one state has the audacity to demand this of Washington, as many as twenty-six states could follow in helping to realign federalism in America.

The Solution

We are offering a real and plausible state sovereignty solution. We have the spiritual and political apparatus in place to execute our plan. The solution focuses on two phases:

PHASE ONE

Focus our efforts on the church in Florida. This is a necessity before we consider running liberty minded candidates for statewide office. We must call the church to humble herself, pray, and repent of complicity (2 Chron. 7:14).

Re-educate the people about the proper role of government and the proper form of government that supports liberty.

PHASE TWO

If leaders in Florida discern that God is behind our efforts, we intend to advance legislation and candidates for state office who will carry the banner of restoring federalism. This legislation and these candidates will offer political solutions with the goal of advancing republicanism through a restoration of federalism and include the following:

- *End abortion in our state by 2015*
- *End the legalized theft of property by the EPA*
- *Uphold the Florida constitutional marriage amendment, which prevents same-sex marriage from being performed or recognized in Florida*
- *Overturn the unconstitutional Obamacare in Florida*
- *We will challenge the federal government's constitutional authority to rule Florida*

We strongly believe that Florida is the lynchpin to restoring liberty throughout the United States. We have all of the necessary ingredients to propel a great awakening and the political change that will follow. Just like the circuit revival meetings of George Whitefield in 1740 or the midnight ride of Paul Revere, we hope to cover the state of Florida with the message of real solutions.

Will you join the cause of liberty?

If you are interested in serving as a neighborhood, community, or county supervisor for the Give Me Liberty campaign and tour, call Carolyn Fisher at (877) 634-2279.
